

Crystallized ginger spheres covered with 100% cocoa mass - 130g

The exquisite match of two grams of freshly ground, crystallized ginger with two-and-a-half grams of 100% chocolate. The Esferas are entirely handmade, one by one. On the palate the fresh aromas of the ginger succeed the taste of the 100%. Remember that our 100% is the result of roasted and peeled cocoa beans. There is nothing added nor taken away. Taste the Esferas at the right temperature (around 28-29°C). Let one Esfera melt on your palate 5-10 seconds and enjoy the pure taste of the 100% chocolate. Once it becomes soft, and only then, bite them and enjoy the match between the two ingredients. Sometimes, when I really feel like enjoying the esferas, I keep the packet in my pocket while I am working. The Esferas will warm up slowly to the perfect temperature. The only risk I face that I want to eat them all at once.
